## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-42 and 49-53, drawn to a process for converting carbonaceous feedstock to alcohol.

Group II, claim(s) 43-44, drawn to a catalyst.

Group III, claim(s) 45-48, drawn to a method for controlling the proportions of carbon monoxide, hydrogen and methane gas in syngas stream.

Group IV, claim(s) 49-53, drawn to a process for converting carbonaceous feedstock to syngas.

Group V, claim(s) 54-57, drawn to an apparatus.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature is the process for converting the carbonaceous feedstock to syngas, this feature has already been described in the art and therefore does not meet the requirements for being a special technical feature that makes over the prior art. US 5,073,356 describes a process for converting carbonaceous feedstock to syngas (col 8, lines 39-65).

A telephone call was made to Kenneth Roberts on 3/30/08 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

### ***Conclusion***

Claims 1-57 are pending

Claims 1-57 are subject to lack of unity requirement.
